Comby 3000

Steamer / Vacuum

Features:

User-Friendly Design	The Comby 3000 features conveniently located one touch on/off buttons on the nozzle handle. Run both the steamer and vacuum at the same time or each system independently. A digital indicator allows you to monitor temperature and pressure.
Powerful Steam Production System	Produce 87 psi (6 bar) in less than 3 minutes. An automated boiler and pump maintains steam pressure.
Detergent Tank	Apply a detergent as you clean or use the detergent tank as a second water tank.
Advanced Vacuum Filtration System	A water trap filters the finest dust particles and eliminates the need for regular paper filter replacement.
