Features

i-power 14 Li-Ion battery
powered, cold sprayer

Lightweight spray nozzle

Faster cleaning time,
better coverage

4 colour coded nozzles
for multiple applications

Shoulder, back, hand or
trolley carried

i-cover

In light of the current pandemic traditional approaches to disinfecting don't cut it anymore. They are often inefficient, but also ineffective at providing proper dwell times and complete coverage of a disinfectant. The cordless i-cover is an advanced cold mist generator designed to make your disinfecting job fast, efficient, and thorough. Simply fill the tank with our range of eco-friendly and safe liquids, push the trigger and start.

i-cover 1.0

i-cover 2.5

Two versions

We have two versions of the i-cover:
i-cover 1.0 & 2.5. The difference?
They have different tank-capacities.

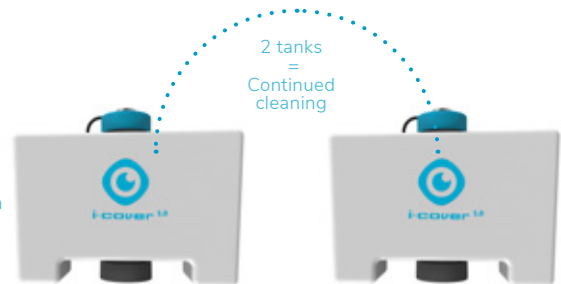

Wide spray

Better coverage because of
specific nozzles, a wide spray
fan generates faster cleaning.

i-cover 1.0 has a
removable tank

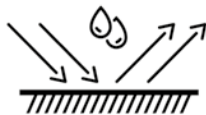

Empty tank

It takes 10 minutes for the tank
to be empty of the i-cover 1.0.
That equals 150m² that is fully covered.
In comparison, the competitor takes
9 minutes which equals only 100m²
that is covered.

Convertible backpack

Four different ways to configure it
by hand, shoulder, back and with a
trolley. This guarantees better control
and excellent ergonomics for the user.

Corrosion resistant

All internal rubber
components are chemical
and corrosion resistant.

Charge one battery

Charge a single
i-power battery with
our new charger

Fine tuned stainless steel nozzles

Multiple nozzles provide fine
tuned coverage. For fragile objects,
use the yellow finest mist nozzle.
For indoor applications, use the green
fine mist nozzle. For food preparation,
use the orange medium mist
nozzle. For outdoors and walls, use
the blue coarse mist nozzle.

Cordless Operation

The i-power 14 battery carries
an approximate charge of 12 hours
(2.5) and 18 hours for the 1.0.

i-cover 2.5

Technical specifications

i-cover 1.0

Handle weight	1 kg
Total product weight	7.5 kg
Working reach (to empty tank)	150 m ²
Running time battery	12 hours
Dimensions (l x w x h)	30x23x27 cm
Tank Volume	1 Liter
Extras	2 tanks included, for changing during operation

i-cover 2.5

Handle weight	1 kg
Total product weight	12 kg
Working reach (to empty tank)	375 m ²
Running time battery	12 hours
Dimensions (l x w x h)	30x25x62 cm
Tank Volume	2.5 Liter
Extras	Integrated backpack and trolley
